## RADIANT Documentation Index

Complete documentation for the RADIANT AI Platform

Version: 4.18.1 | Last Updated: December 2024

### Quick Links

I want to...	Read this
Deploy RADIANT	<a href="#">Deployer Admin Guide</a>
Manage the platform	<a href="#">Radiant Admin Guide</a>
Use Think Tank	<a href="#">Think Tank User Guide</a>
Understand the architecture	<a href="#">Architecture</a>
Troubleshoot issues	<a href="#">Troubleshooting</a>
Use the API	<a href="#">API Reference</a>

### Documentation Categories

#### Administrator Documentation

Guides for platform administrators and operators.

Document	Description	Audience
<a href="#">Deployer Admin Guide</a>	Complete guide for Swift Deployer app	DevOps, Platform Engineers
<a href="#">Radiant Admin Guide</a>	Admin Dashboard management guide	Platform Administrators
<a href="#">Administrator Guide</a>	Legacy admin documentation	All Administrators
<a href="#">Deployment Guide</a>	Infrastructure deployment	DevOps Engineers
<a href="#">System Guide</a>	System architecture details	Technical Leads

## Consumer Documentation

Guides for end-users of RADIANT-powered applications.

Document	Description	Audience
<a href="#">Think Tank User Guide</a>	Complete user guide for Think Tank	End Users

## Technical Reference

Technical documentation for developers and integrators.

Document	Description	Audience
<a href="#">API Reference</a>	REST API documentation	Developers
<a href="#">API Versioning</a>	API version management	API Consumers
<a href="#">Error Codes</a>	Standardized error codes	Developers
<a href="#">Testing Guide</a>	Testing strategies and tools	Developers, QA
<a href="#">Architecture</a>	System architecture	Architects, Developers

## Operations & Compliance

Guides for operations, security, and compliance.

Document	Description	Audience
<a href="#">Compliance</a>	SOC2, HIPAA, GDPR compliance	Compliance Officers
<a href="#">Security</a>	Security policies	Security Team
<a href="#">Data Retention</a>	Data lifecycle management	Compliance, Legal
<a href="#">Disaster Recovery</a>	DR procedures	Operations
<a href="#">Performance</a>	Performance tuning	DevOps
<a href="#">Cost Optimization</a>	Cost management	Finance, Operations
<a href="#">Troubleshooting</a>	Problem resolution	Support, Operations

## Runbooks

Operational procedures for common tasks.

---

Runbook	Purpose
<a href="#">runbooks/</a>	Operational runbooks directory

---

## Documentation by Role

### Platform Engineers / DevOps

1. [Deployer Admin Guide](#) - Deploy and manage infrastructure
2. [Deployment Guide](#) - Manual deployment procedures
3. [Disaster Recovery](#) - DR planning and execution
4. [Performance](#) - Performance optimization

### Platform Administrators

1. [Radiant Admin Guide](#) - Day-to-day management
2. [Administrator Guide](#) - Additional admin tasks
3. [Cost Optimization](#) - Cost management

### Developers

1. [API Reference](#) - API integration
2. [Error Codes](#) - Error handling
3. [Testing Guide](#) - Writing tests
4. [Architecture](#) - System design

### End Users

1. [Think Tank User Guide](#) - Using Think Tank

### Compliance & Security

1. [Compliance](#) - Compliance frameworks
  2. [Security](#) - Security policies
  3. [Data Retention](#) - Data management
- 

## Version Information

---

Component	Version	Documentation
RADIANT Platform	4.18.1	This documentation
Think Tank	3.2.0	<a href="#">User Guide</a>
Swift Deployer	4.18.1	<a href="#">Admin Guide</a>
Admin Dashboard	4.18.1	<a href="#">Admin Guide</a>

---

## Recent Updates

Date	Document	Changes
Dec 2024	<a href="#">Deployer Admin Guide</a>	New comprehensive guide
Dec 2024	<a href="#">Radiant Admin Guide</a>	New comprehensive guide
Dec 2024	<a href="#">Error Codes</a>	60+ standardized error codes
Dec 2024	<a href="#">Testing Guide</a>	Complete testing documentation
Dec 2024	<a href="#">Think Tank User Guide</a>	Updated to v3.2.0

---

## Contributing to Documentation

See [CONTRIBUTING.md](#) for guidelines on updating documentation.

## Documentation Standards

- Use Markdown format
- Include version and date
- Add to this index when creating new docs
- Follow the existing structure and style

---
