Pages Needing Unlink/Removal

These pages exist in admin-dashboard but should be in Think Tank Admin per isolation architecture: - /thinktank/* - All 20+ directories should be migrated to `apps/thinktank-admin/`

Recommendations

Immediate Actions (P0)

1. **Complete Reports Page** (`apps/thinktank-admin/app/(dashboard)/reports/page.tsx`)
   - AI Report Writer is 80% complete but has placeholder sections
   - Schema Builder needs data connection
2. **Complete Delight Dashboard** (`apps/thinktank-admin/app/(dashboard)/delight/page.tsx`)
   - Core delight tracking is implemented
   - Statistics sub-page needs completion
3. **Living Parchment Memory Palace** - Key differentiator feature
   - Memory visualization needs implementation
   - Oracle View marked as "Coming Soon"

Short-term Actions (P1)

4. **Migrate Think Tank pages** from admin-dashboard to thinktank-admin
   - Per APP-ISOLATION-ARCHITECTURE.md policy
5. **Complete War Room** (`/cato/war-room`)
   - Critical for Genesis Cato safety monitoring
6. **Complete Decision Records**
   - Important for audit trail compliance

Long-term Actions (P2)

7. Clean up placeholder components across all apps
8. Add loading states where missing
9. Connect mock data to real API endpoints
